

*Total estimated cost:* about \$3,979,500 (per year), includes \$586,300 annualized capital or operation & maintenance costs.

*Changes in Estimates:* The annual respondent burden estimate in the currently approved CROMERR ICR (EPA ICR Number 2002.07) is 86,554 hours. The annual respondent burden estimate for this ICR (EPA ICR Number 2002.08) is anticipated to be about 77,000 hours. This represents a decrease of 9,554 hours in the total estimated respondent burden compared with the ICR currently approved by OMB.

The decrease in respondent burden can be attributed primarily to three reasons. First, even though the annual number of registrants with EPA's electronic document receiving system (*i.e.*, the Central Data Exchange (CDX)) has increased over the past three years, the actual number of registrants under the e-Manifest system was lower than projected in the currently approved ICR. As a result, there is a net decrease in the number of registrants. Second, over the past three years, the Agency made improvements to CDX to enhance efficiencies in end-user registration, integration, and Help Desk support. These improvements resulted in reduced burden to respondents. Third, as a result of technological improvements, the Agency now is able to obtain real world data via google analytics on the frequency and amount of time a respondent spends accessing CDX web pages and features. Based on this information, EPA has revised the burden estimates associated with some of the CDX registration and identity proofing activities. The Agency believes that these revised burden estimates more accurately reflect the resources spent by respondents conducting electronic reporting activities under CROMERR, and for states gaining approval of their electronic reporting provisions for all their EPA-authorized programs. The overall change in respondent burden is considered an "adjustment," because it results from changes in the respondent universe and hourly burden estimates used in the development of the ICR.

### Glyphosate Registration Review; Draft Endangered Species Act Biological Evaluations; Extension of Comment Period

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice; extension of comment period.

**SUMMARY:** EPA issued a notice in the **Federal Register** of November 27, 2020, opening a 60-day comment period on the draft nationwide biological evaluations for the registration review of the pesticide glyphosate relative to the potential effects on threatened and endangered species and their designated critical habitats. This document extends the comment period for 45 days, from January 26, 2021 to March 12, 2021.

**DATES:** Comments, identified by docket identification (ID) number EPA-HQ-OPP-2020-0585 must be received on or before March 12, 2021.

**ADDRESSES:** Follow the detailed instructions provided under **ADDRESSES** in the **Federal Register** document of November 27, 2020 (85 FR 76071) (FRL-10017-03).

**FOR FURTHER INFORMATION CONTACT:** Tracy Perry, Pesticide Re-Evaluation Division (7508P), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460-0001; telephone number: (703) 308-0128; email address: [perry.tracy@epa.gov](mailto:perry.tracy@epa.gov).

**SUPPLEMENTARY INFORMATION:** This document extends the public comment period established in the **Federal Register** document of November 27, 2020 (85 FR 76071) (FRL-10017-03), which opened a 60-day public comment period for the draft nationwide biological evaluations for the registration review of the pesticide glyphosate relative to the potential effects on threatened and endangered species and their designated critical habitats. As noted in that document, the schedule for conducting the atrazine and simazine BEs was negotiated as part of a partial settlement agreement pursuant to a joint stipulation filed on October 18, 2019 and entered by the

court on October 22, 2019, in *Center for Biological Diversity et al. v. EPA et al.* (N.D. Ca) (3:11-cv-00293). EPA stated in that settlement that it would also include the herbicides propazine and glyphosate in this group of effects determinations. The Agency has completed a comprehensive, nationwide draft BE for the use of glyphosate relative to the potential effects on listed species and their designated critical habitats.

After considering a number of requests to extend the comment period received from various stakeholders, EPA is extending the comment period for the following reasons: (1) The length, complexity, and highly technical nature of the draft biological evaluations; (2) the need for some stakeholders to engage experts familiar with the subject matter to assist them with providing comments; (3) the large number of stakeholders potentially impacted by the draft biological evaluations; (4) the importance of soliciting feedback from stakeholders who may be affected; and (5) the stakeholders' need for additional time to review and develop constructive comments for this BE document. This document extends the comment period for 45 days, from January 26, 2021 to March 12, 2021.

To submit comments, or access the docket, please follow the detailed instructions provided under **ADDRESSES** in the **Federal Register** document of November 27, 2020. If you have any questions regarding the applicability of this action to a particular entity, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

### Proposed Information Collection Request; Comment Request; Clean Water Act 404 State-Assumed Programs

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** The Environmental Protection Agency (EPA) is planning to submit an information collection request (ICR), “Clean Water Act Section 404 State-Assumed Programs” (EPA ICR No. 0220.14, OMB Control No. 2040-0168) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. Before doing so, EPA is soliciting public comments on specific aspects of the proposed information collection as described below. This is a proposed extension of the ICR, which is currently approved through July 31, 2021. An Agency may not conduct, or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.
